**DomoFlex<sup>®</sup>**

the mini-lift for everyone

## No structural work required

Say goodbye to construction work in your home — you don't even need a pit to have your own mini lift, with either manual or automatic landing doors.

## 5-year warranty

The only one in Italy to offer such an extended warranty as standard.

Peace of mind, with the certainty of having a safe and reliable product in your home, built to last.

## No machine room required

You won't need to sacrifice any space for a machine room in your home — the entire system is built into the home lift shaft!

# DomoFlex® meets every need

Suitable for both indoor and outdoor use, its clean, minimalist design blends seamlessly into residential, professional, and high-end environments. Its panoramic finish makes it the ideal solution even in architectural settings where a low visual impact is required.

A modern glass elevator with a light-colored frame and glass panels is the central focus. The elevator is open, revealing a control panel with several buttons and a glowing 'X' light pattern on the glass. The setting is a penthouse with a large window offering a panoramic view of a city at night, with lights from buildings and streets visible. In the background, a beige sofa and a coffee table are visible in a living area.

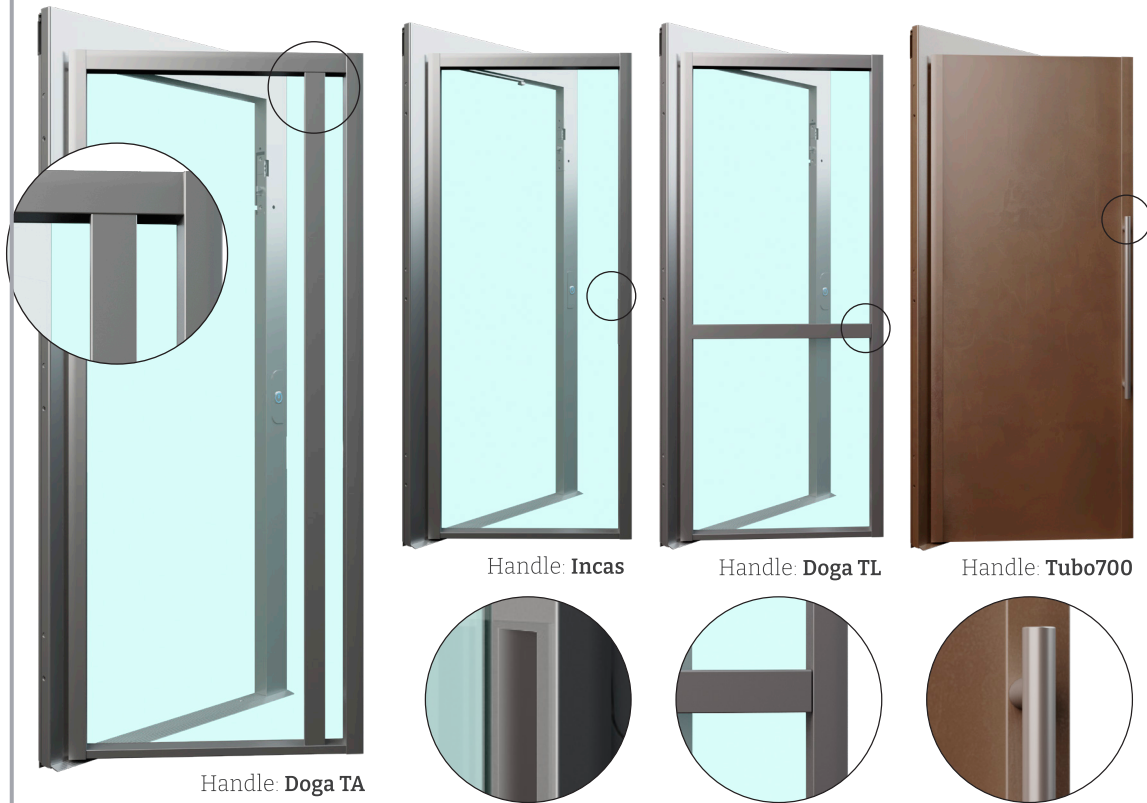

**DomoFlex**® is your everyday little luxury — a perfect blend of elegance, comfort, and safety. Installing in penthouses or connecting intermediate floors is easy with **DomoFlex**®.
